

## ON-SITE AND/OR CUSTOMISED TRAINING SOLUTIONS

Looking for on-site training or customised solutions to better meet your needs?

All our programs are available for on-site delivery and all can be customised or new programs can be developed. There are many benefits to conducting training at your own site:

- ⇒ Lower costs per participant
- ⇒ Ability to customise to your needs
- ⇒ Ability to teach equipment-specific standards
- ⇒ Privacy from other companies or competitors
- ⇒ Convenience in scheduling

## COACHING & CONSULTING

- ⇒ Safe Operations Performance Improvement Solutions
- ⇒ Safety Culture Diagnostics
- ⇒ Safety Performance Coaching
- ⇒ Team & Leader development
- ⇒ Managing Change

## DRILLING TECHNOLOGY

- ⇒ IADC/IWCF Well Control
- ⇒ Drilling Practices
- ⇒ HPHT
- ⇒ IADC Rig Pass
- ⇒ Basic Drilling Overview
- ⇒ Stuck Pipe
- ⇒ Marine Licensing
- ⇒ Marine Stability Training

## ENGINEERING COURSES & TRAINING

- ⇒ Pressure Equipment Regulations
- ⇒ ARC Flash
- ⇒ Transformer Oil Sampling & Reporting
- ⇒ Earthing & Lightening Protection
- ⇒ Transformer Testing & Maintenance
- ⇒ Medium to High Voltage Switchgears

**HazIQ™**

Hazard Competency Programs

### Hazard Identification and Awareness

Through the use of Intertek's dynamic hazard awareness tool, your employees gain the skills and competencies needed to effectively identify and manage common work-site hazards. Regardless of how obvious work-site hazards may seem, they are actually less understood than most would think

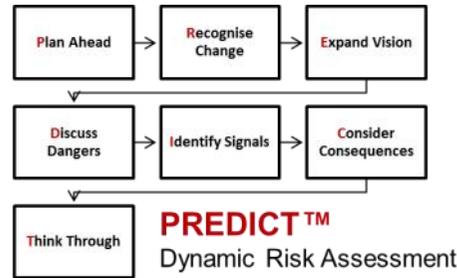

**High5™**

Hand Prevention Program

### Hand Injury Prevention Program

Intertek's High 5 initiative is based on real-world situations and designed to be facilitated by your supervisors and can be incorporated into a routine team meeting. High 5 enhances any safety culture by changing attitudes regarding hand-use and creating an understanding of the value of an incident-free workplace.

### Dynamic Risk Assessment

Dynamic Risk Assessment addresses human factors and behaviours to improve recognition and control of hazardous situations. Through the Predict tool, your organisation will develop a management team and workforce that is able to continuously look for hazards, assess and manage risk, and recognise and handle situational changes.

### SOP™ Worksite Coaching

Experienced SOP Coaches work on on-site making observations around key indicators (pre-determined by you). We often continue learning by facilitating small group sessions with selected people and teams, around action plans, communication and leadership skills. With a view to safe operational improvement.

Often coach the coach programs are conducted for your selected Coaches to ensure long-term sustainability and ownership of your Safety Cultural Change and Vision long after we have gone.

### OTHER INTERVENTIONS FOR CONSIDERATION

#### Predict—Dynamic Risk Assessment **2 Days**

The goal of the course is to develop a management team & workforce that is able to continuously look for hazards, assess and manage risk, recognize and handle situation changes.

#### HazIQ **1/2 - 1 Day**

By using a simple hazard identification tool, participants gain skills in identification and competence when addressing common hazards.

#### High 5 **1/2 - 1 Day**

This hand injury prevention program is designed to train supervisors to lead an internal hand injury on workshop, individual, and people around them. Enhances any safety culture by changing attitudes regarding hand-use and creating an understanding of the value of an incident-free workplace.

#### Job Safety Analysis **1 Day**

Increases commitment and effectiveness in the use of JSA/JRA and other risk assessment tools to improve skills for identifying hazards and mitigating risk.

#### Permit to work **1 Day**

Prepares individuals to work within the standards required by your organization's Permit to Work System.

#### SHEQ 24/7 **3 Day**

Nobody wants a fatality to occur or injury to happen. SHEQ 24/7 introduces you to a proven process that will help illuminate incidents, not only in the workplace but in your everyday life. Bring to life the culture of safety within your organisation.

#### Leadership Skills **3 Days**

To continue maximizing performance potential, organisations require focus on leadership and supervisory skills. The overall goal is to increase the interpersonal skills of first time or experienced managers and supervisors in order to enable the organization's vision and goals to be achieved.
