WESTERN USA SHALE OIL AND GAS SUPPORT & EXPERTISE

Providing local support for the oil and gas industry in North Dakota, Montana, Wyoming, Colorado, Utah, New Mexico, Arizona and throughout the shale oil reservoir regions

Offering a wide range of testing, inspection, calibration, certification, & other services assisting with quantity, quality and operations in support of oil and natural gas production, transportation, midstream, downstream and refining.

Overview

Intertek is committed to providing local support for the oil and gas industry in North Dakota, Montana, Wyoming, Colorado, Utah, New Mexico, Arizona and throughout the shale oil reservoir regions.

Intertek's Bismarck North Dakota ISO 9001 Certified laboratory provides rapid turnaround with quality analysis for crude oil testing needs, locally and regionally, to global quality standards.

Experienced personnel provide crude oil and natural gas field sampling, metering and measurement services including meter proving and 3rd party witnessing, inspection services of storage tanks, railcars and pipelines, and gauging of storage tanks and railcars. Intertek also provides professional, accurate, and detailed measurements and calibration (strapping) of storage tanks. Personnel are equipped with state-of-the-art measuring devices NIST traceable.

IATA Dangerous Goods Shipping by certified staff provides clients the option of overnight Haz-Mat shipping access for any laboratory analysis not performed locally and access to all Intertek Laboratories throughout the USA. Sample pick up is easily arranged throughout North Dakota, Montana, Wyoming, Colorado, Utah, Arizona, and New Mexico as well as accepting sample drop off at all our locations.

Intertek is committed to providing superior customer service with Total Quality. Assured.
