

CHEMICAL MANAGEMENT SERVICES

FOOD CONTACT MATERIALS & FOOD PACKAGING

Intertek Assuris has the expertise to assist with your global food contact and food packaging safety and regulatory compliance needs.

Background

From reducing static in dry food packaging to sealants for lids and caps on bottles, chemicals are incorporated into food contact materials and food packaging in various ways.

However, stringent global regulations and the concerns of chemical safety to consumers and the environment are the ever-growing challenges the industry is constantly facing. Are you ready for these challenges?

Reinforce the safety and regulatory compliance of your products with the Chemical Management Services for Food Contact Materials and Food Packaging from Intertek.

The safety of food contact materials and food packaging directly impact the safety of food. Food contact materials and food packages are regulated by the U.S., FDA, EU, China, and other government agencies around the world. Ensuring safety and compliance of food contact materials and food packaging are critical to brand protection and promotion of growth.
