PRODUCT INSPECTION PLATFORM

**ADVANCED INSPECTION
POWERED BY
DATA INTELLIGENCE**

Real-time inspection intelligence

INSPECTION

INTELLIGENCE

QUALITY

DESIGNED TO ELEVATE YOUR PRODUCT INSPECTION EXPERIENCE AND INSIGHTS.

Whether you are selling garments, footwear, furniture, toys or electrical items, Intertek understands your challenges when it comes to monitoring product quality from thousands of miles away. With i2Q, we take away your concerns about product quality with a streamlined inspection process driven by powerful data intelligence.

BECOMING DIGITAL IN THE DIGITAL WORLD

Online scheduling

Simply schedule your inspection on the web with pre-populated lists to save time!

Online quotation

Once scheduling is confirmed, you will receive quotation right away!

Smart Protocol

Everything smart is good. i2Q's Smart Protocol ensures all inspection jobs are done in the way they are meant to be.

ENABLING FASTER AND MORE INFORMED BUSINESS DECISIONS

Same-day report

Nothing beats speed in the modern world. Sit back and relax to learn about your products' quality from the inspection reports within 24 hours after inspection. The whole process is paperless too!

Search power

We have already included the most commonly used search criteria as a default to maximize your time. You will be able to see real-time information about your inspection activities.

Business analysis

Again, key parameters have already been set up to simplify performance management. Drill down to product-type or factory and more, to extract insights for product or supplier improvement.

EASE-OF-USE AND CONVENIENCE FOR YOU

Sleek dashboard

i2Q is designed by Pros for beginners. You can navigate the system effortlessly and with ease.

Single storage

Store everything related to your product inspection for 24/7 at i2Q, enabling simplicity and convenience..

Data security

Worry not about data security. i2Q has you well covered on this.

THE SYSTEM THAT WORKS FOR YOU
