

A COMPLETE COMMERCIAL APPLIANCE SOLUTION

Assurance, Testing, Inspection and Certification Services - "Bringing Quality & Safety to Life"

SAFETY

Across global markets, Intertek's services and Marks show equipment, product, and system conformance to regulatory and industry standards. They also ensure ongoing verification of conformance and performance in critical areas to help your customers succeed in their markets.

Ensuring your product is safe and compliant is critical. For safety certification we offer our proprietary ETL Listed Mark. With over 85,000 product listings, ETL is recognized as the fastest growing product certification mark in North America.

GLOBAL MARKET ACCESS

Expanding your reach into the global marketplace is becoming more and more necessary. Obtaining the proper certifications can be challenging. Intertek has the tools and relationships to help position your products for any market. Our industry leading global strategy advisory tools provide greater market flexibility, reduced cost and most importantly - market roll-out predictability. Design review? Market mapping? Regulatory scan? No problem.

EMC

Today, most products are connected and utilize sophisticated electronics. With the largest global network of EMC Testing labs, Intertek provides the capacity, proximity and engineering resources to streamline your EMC Compliance Testing process for any market you want to reach.

Testing services include FCC, IC, EMC Directive, Radio Equipment Directive, and more.

SANITATION

When selling your food service, commercial kitchen, and other commercial appliance equipment products in North America, they must comply with applicable Sanitation standards, recognized by the American National Standards Institute (ANSI). As an ANSI-accredited certification body, Intertek performs the range of sanitation testing and certification services for food service and commercial appliance equipment according to ANSI/NSF standards.

Once your commercial appliance product demonstrates compliance, Intertek will authorize the use of the ETL Sanitation Mark, allowing it to be sold in the United States and Canada.

Did we mention? Intertek can also test water and air quality.

ENERGY EFFICIENCY

Improving energy performance, developing clean and sustainable energy, and protecting the environment are key initiatives that all manufacturers must undertake to ensure their products conform to the evermore-complex framework of energy use regulations.

Intertek has the requisite accreditations, expertise and state-of-the-art testing laboratories around the world to help you meet energy efficiency requirements for global markets.

Energy Efficiency Testing for North America includes ENERGY STAR®, EnergyGuide Label, AHRI, CEC, NRCAN, LEED, ErP Directive, and more.
