

PRIORITY ADVANTAGE DESK (PAD)

It's about time.

Efficient laboratory working practices mean that Intertek Lintec is able to issue results of analysis on the same day that the sample arrives at the laboratory. Consequently, the critical factor has become the time taken to deliver the sample to the laboratory.

The Intertek Lintec Priority Advantage Desk (PAD), the cost of which is included in the price paid for analysis, minimises the time taken to courier the sample from the bunker location to the laboratory.

It also takes the burden from the vessel's crew and passes it on to Intertek Lintec/DHL.

Sample collections can be arranged using either the PAD form included in our sample kits or by accessing our online form.

Priority Advantage Desk Online Booking of Samples Log on to www.intertek-lintec.com

- Click on **Request Sample Collection**
- Complete the online form
- The system will generate an electronic airway bill and shipping document
- Please ensure these documents are landed with your sample

Booking of Samples using the Priority Advantage Desk form

- Complete the 'Request for Bunker Sample Collection' form included in your sample kit
- Email the completed form to:
- lintec.dhl@intertek.com
- Ensure the airway bill and pre-printed proforma invoice (included in the sample kit) are landed with the sample

On receipt of the bunker sample collection form by the Priority Advantage Desk (PAD), a local courier will be contacted and arrangements made to collect the sample.

The location of the sample is then monitored, ensuring a swift delivery to the laboratory.

If you encounter any issues arranging a collection, please contact:

lintec.testing@intertek.com and we will endeavor to assist.

Increased awareness has seen more clients taking advantage of this service. If you're not taking advantage of the PAD then **'it's about time'** you did.

About Intertek Lintec

Our network of more than 1,000 laboratories and offices in more than 100 countries, delivers innovative and bespoke Assurance, Testing, Inspection and Certification solutions for our customers' operations and supply chains.

Intertek Lintec is the shipping community's gateway to Intertek's global network of state-of-the-art laboratory facilities and industry-leading technical Total Quality Assurance expertise.
