

SALEEM CERTIFICATION

TRADING WITH SAUDI ARABIA

Intertek's Total Quality Expertise supporting
Exporters and Importers to comply with the
SALEEM Programme in Saudi Arabia

The Saudi Standards, Metrology and Quality Organisation (SASO) has made the decision to implement the Saudi Product Safety Programme (SALEEM) by launching the SABER platform for online Certification. It will be implemented from 1st January, 2019.

SASO has published a list of Technical Regulations for various products covering Lube Oils, Detergents, Building Materials and Construction Products, Paints, Lifts, Vehicle Spare Parts, Textiles, etc. The products covered by the Technical Regulations are referred to as Regulated Products.

The Conformity Assessment Process for the Regulated Products is a two stage process:

Stage 1: Issuance of Product Certificate of Conformity (PCoC).

The PCoC is issued for every regulated product as per the applicable product standards defined in relevant Technical Regulation. The PCoC is valid for a period of one (1) year.

In order to facilitate the products registration on SABER, our office in KSA is ready to assist the importers to register their products on their behalf. Our expert team has the required technical competencies to provide full support in this regard.

Stage 2: Issuance of Shipment Certificate of Conformity (SCoC).

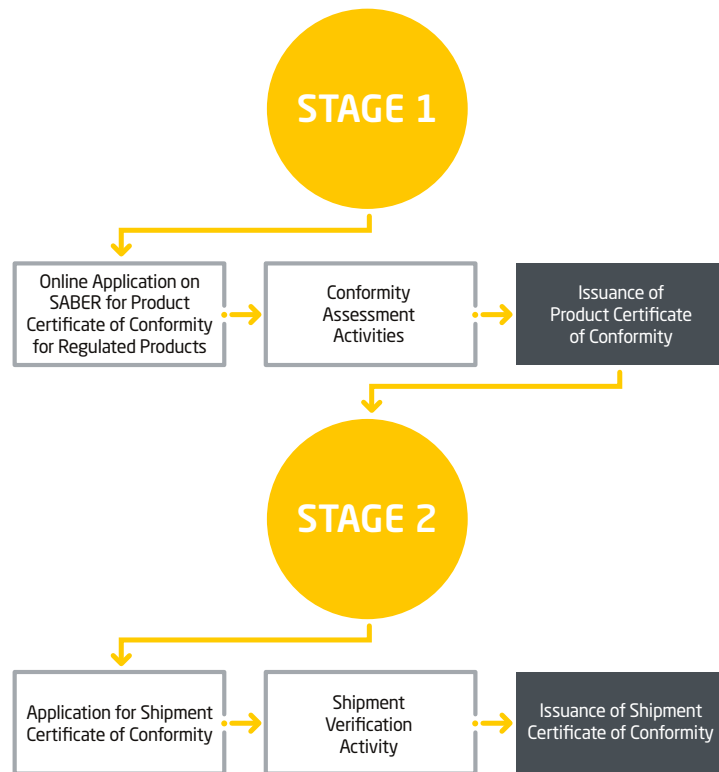

Every regulated products included in the shipment will be verified whether valid PCoC exists for that product and if found to be true will be issued with the SCoC. The SCoC is valid for that specific shipment only.

To support SALEEM, SASO has launched an online electronic platform "SABER" which facilitates issuance of PCoC and SCoC.

Importers have to register online on the SABER platform to obtain PCoC and SCoC.

Intertek is accredited for most of the Technical Regulations in all the five regions and Importers can select one of Intertek's five (5) Accreditation Offices to facilitate Conformity Assessment and Certificate issuance.

SASO Certification Process

STAGE 1

- Request for Product Certificate of Conformity (PCoC) by Importer.
- Entry of Product Details in the system based on KSA Customs Tariff Code.
- Selecting of Certification Bodies (CBs) such as Intertek.
- Payment of PCoC Fees.
- Conformity Assessment and entry of substantiating Documents/Verification Results by Intertek.
- Issuance of PCoC from the system.

STAGE 2

- Request for Shipment Certificate of Conformity (SCoC) by Importer.
- Payment of SCoC Fees.
- Verification and confirmation of valid PCoC for the product by Intertek.
- Issuance of SCoC from the system.

The Intertek Solution: helping you export to Saudi Arabia:

- Intertek has a global network of accredited offices covering most Technical Regulations
- Intertek operated the Saudi Conformity Assessment Programme for over 20 years issuing more than 2 million certificates.
- Our staff are experts on Saudi Standards and requirements, as well as understanding the needs of exporters and importers.
- Intertek has one of the world's largest networks of laboratories, authorised to test to Saudi requirements including Electrical, Chemical, Cosmetic, Toy, Automotive goods and many others.
- Intertek Certificates are recognised and trusted by the authorities in Saudi Arabia.
