

CHEMICAL MANAGEMENT AUDIT CERTIFICATION

SUPPLIER MANAGEMENT VERIFICATION SOLUTIONS

Intertek's Chemical Management Audit solution is designed to help retailers and brands verify the safe handling and proper disposal of chemicals, in order to promote chemical management best practices throughout the global supply chain network.

Your challenges, our solutions

Intertek's Chemical Management Audit solution can help ensure effective chemical management across your supply chain. The process starts with an application of chemical expertise to provide a facility baseline risk indicator, from which auditing of your facility can be efficiently planned.

Intertek's web-based platform and software helps ensure our Chemical Management Audit approach is the ideal tool for evaluating, tracking and monitoring chemical management performance in factories, ultimately assuring overall performance improvements.

Intertek's Chemical Management Audit solution includes modular guidance for:

- Chemical Supply & Policy
- Management Practices
- Health & Safety
- Storage & Handling
- Waste & Disposal

Benefits to Intertek's Chemical Management Audit solution include:

- Increased visibility of chemicals used in supply chain

- Improved chemical management system and practice
- Benchmarked results with global visibility
- Management transparency to enable targeted efforts.
- Identification of process efficiency and cost savings
- Assistance with green product design and certification
- Protect reputation risk, people and environment

Upon satisfactory completion of the chemical management assessment and performance criteria, the manufacturer will receive a report which details performance as well as benchmarked comparisons with peers. The report showcases commitments of moving towards zero discharge of hazardous chemicals.

How Intertek can help

Intertek has proven global auditing expertise helping organisations around the world to achieve compliance to common requirements and provide assurance that sustainability efforts are being met. Our services assist businesses with compliance and build sustainable programs for long term improvement. Our experts have learned

unique techniques to best drive improvement through reduced environmental footprint, increased efficiency and cost savings.
