

ISO 22716 COMPLY WITH COSMETICS GMP

GOOD MANUFACTURING PRACTICES FOR COSMETIC PRODUCTS

ISO 22716 provides organisations with practical methods for managing human, technical, and administrative factors affecting cosmetic product quality.

ISO 22716 was created to provide services that comply with product manufacturing guidelines implemented through Good Manufacturing Products (GMP). Specifically to adhere to management systems approach to documenting and regulating the production, control, storage, and shipment of cosmetic products.

Intertek provides a "one-stop-shop" compliance solution for cosmetic manufacturers. Our testing services include; clinical studies, safety assessments, quality control, in-vitro testing, product claim verification, screening for restricted substances, and supplier audits.

Your Challenges, Our Solutions

One of the principle new features of the European cosmetics regulation is compliance with GMP. One of the major aims of GMP is to ensure the quality and safety of cosmetic products in circulation within the European Union. Beyond the regulatory aspect, ISO 22716 standard helps you improve your brand image, facilitates your exports, and prepares you for inspections by the relevant authorities.

As of 2013, all cosmetic products placed on the European market must be manufactured according to GMP regulations. Compliance

with ISO 22716 is a presumption of conformity to the GMP recognized by competent authorities.

Intertek's significant experience in the cosmetic industry and coupled with our auditor network in close proximity to production sites in Europe, America, and Asia, make us a strong preferred partner to guide you throughout the GMP implementation process including:

- Assessment (preliminary audit)
- Training
- Final Audit
- Issurance of an ISO 22716 Certificate of Conformity

How Intertek can help

With 30 years of experience in the health and beauty industry, Intertek brings in-depth knowledge of the manufacturing processes and GMP codes to cosmetics manufacturers. With our global network of auditors, we provide a full compliance solution for ISO 22716.

Intertek offers auditing services and training courses for the purposes of making your organisation's auditing as seamless as possible. Training courses include webinars and in-person classes designed to help your

organisation continually improve.
