intertek
Total Quality. Assured.

Food Services

Intertek is one of the world's leading food safety testing, auditing and certification bodies. Our blend of expert analytical and advisory services help our customers to achieve compliance and improve safety, quality and efficiency.

About Intertek

Intertek is a leading Total Quality Assurance provider to industries worldwide. Our network of more than 1,000 laboratories and offices in more than 100 countries, delivers innovative and bespoke Assurance, Testing, Inspection, Training and Certification solutions.

Our experts are accredited to audit and certify systems, products and processes to national and international standards, with a commitment to local expertise which allows our customers to operate with confidence.

Intertek's services can help you to focus on what matters most to your business – growing revenues, increasing market share and achieving greater business success.

You can be certain that your reputation is in safe hands with our in-depth and far-reaching expertise, bringing assurance to manufacturing and operations for hundreds of companies and millions of consumers worldwide every day.

In a world that is constantly changing, it is reassuring to know that professional and expert support is always available, whenever and wherever you need it.

Risk Assessment & Quality Assurance

To develop an effective quality assurance system, a risk assessment of products and manufacturing procedures needs to be completed, including country of origin and target destination.

Intertek has the necessary knowledge, product and market expertise to support you in creating safe and quality products for your customers.

Minimise risk and ensure product safety:

- Product specifications based on appropriate criteria
- Label validation
- Marketability testing to ensure compliance with legal regulations
- Risk-oriented monitoring plans
- Testing and certification programmes, including independent quality marks
- Training programmes
- Outsourcing
- Supportive IT tools

Auditing & Certification

Intertek is an accredited certification body and offers a comprehensive range of auditing and certification services, and pre-audits, for all internationally recognised standards including GFSI schemes.

Our experts are part of the GFSI Global Markets Programme which provides support to smaller organisations (SMEs) and helps them to achieve accredited certification. By supporting SMEs to meet food safety standards and gain access to GFSI-recognised schemes, the food industry benefits from a reduction in hazards along the entire global food supply chain. The GFSI step-by-step programme is designed to build capacity within production and manufacturing operations, and implement a course of continuous improvement.

Strengthen your product, market value and competitive edge with our complete range of independent audits and certification services:

- BRCGS Global Standard
- The Intertek Food Hygiene Control Mark
- GFSI Global Markets Programme
- IFS Food (International Featured Standard)
- System certification (ISO 9001, ISO/FSSC 22000 - Food Safety System Certification)
- Global G.A.P.
- G+S (Quality & Safety)
- GMP+
- HACCP (Hazard Analysis Critical Control Point), GMP (Good Manufacturing Practice), GCP (Good Catering Practice)

- Supplier audits
- Second party audits
- Social, environmental, and ethical (SMETA, WCA, ISO 14001, TGI)
- Vegan Mark

Testing

Using established internationally accepted methods, Intertek's accredited laboratories provide the necessary analysis and testing based on your risk assessment and quality assurance specifications.

Benefit from our extensive range of customisable analytical services, advisory packages, project work and expert evaluation of results:

- Quality parameters & nutritional values
- Microbiology & pathogens
- Residues & contaminants
- Allergens
- Authenticity
- Determination of animal species & GMO
- Testing for food contact suitability
- Packaging testing
- Honey analysis
- Shelf life testing

Supplier Management

One of the most important components of your quality assurance system is the consistent and transparent traceability of your products at any point in the supply chain.

For the evaluation and risk assessment of your suppliers, Intertek provides you with a wide programme of services for raw materials through to finished products.

Be supported by our service throughout your entire supply chain. Our comprehensive programme can be tailored to your individual requirements:

- Sustainability initiatives
- Auditing & certification
- Sampling plans
- Risk-orientated monitoring plans
- Analysis of drawn samples
- Surveillance auditing (announced and unannounced)
- Supervision of loading and discharge
- Label validation and marketability lasts
- Mystery shopping
- Online portals for data registration and evaluation

Our global outreach

The services that Intertek provides meets the needs of all kinds of organisations working in the widest range of fields, markets and geographies. Whatever safety or quality issues you face, we have the flexibility and the experience to deliver Total Quality Assurance for your business.

Training Programmes

Intertek is a leading training provider, delivering a wide range of courses to more than 100,000 people, across the globe annually. Trust our training experts to help you get the most out of your management system and standards adoption for your business.

Courses are delivered virtually and on-site at Foundation, Internal and Lead Auditor levels in:
