

LARRY LIVERMORE, FMPC
REGIONAL MANAGER
BUILDING SCIENCE SOLUTIONS

YEARS WITH INTERTEK: 10 / YEARS IN INDUSTRY: 39

Larry brings over 39 years of experience as a fenestration/facade expert and building enclosure commissioning consultant. He was the principle developer of both the Residential and Commercial InstallationMasters™ training programs and remains the lead instructor for the program. His experience with design, manufacturing and installation of fenestration and facade systems as well as hands-on field testing has afforded him with the knowledge and skills necessary to provide detailed peer reviews, product shop drawing reviews, field and manufacturing inspections and expert testimony. This background and experience with facade components and assemblies has allowed him to be an effective leader in the Building Enclosure Commissioning BECx field.
